

DIESEL INJECTION SERVICE & MIKE CLEARY PRESENT:

Colton, CA: Two Classes: Auto & Truck Electrical and Ford 6.7L Powerstroke Diesel Hands-On Training Event

SIGN UP EARLY—SAVE MONEY! CLASS SIZE LIMITED!

Mike Cleary, the instructor, is an eight-time award winning Ford Motor Company Certified Senior Master Technician and Powerstroke Engine Specialist. He was a founding board member of Ford Motor Company's Professional Technician Society, an organization dedicated to serving the needs of Ford dealership technicians in the United States and Canada. He has served on two separate Ford National Technician Advisory Boards, and received national recognition from Ford Motor Company for his contributions to Ford as a field technician involved in improving the 6.0L Powerstroke Diesel Engine Program. As a former member of Ford's IDS (Integrated Diagnostics Software) beta team, he provided field feedback to Ford regarding how IDS performed on Ford's newest vehicles. Long recognized for his diesel performance expertise, less well known is that he served as a sort of "Last Chance Garage" for many frustrated customers and technicians while serving as shop foreman and chief driveability and electronics technician at a California Ford dealership. Faced with the prospect of having to repair the vehicle and at the same time salvage the dealer/customer relationship, he developed his own unique diagnostic strategies for quickly and efficiently diagnosing the most difficult problems on a wide variety of vehicle systems: diesel engine performance, gasoline engine performance, and body and chassis electronics.

He is an ASE Certified Master Technician in both the Automobile and Heavy Truck categories, as well as being L1, L2, and F1 Certified. He is also certified by the state of California as an Advanced Emission Specialist Technician, and has a Bachelor of Science Degree in Industrial Technology from California State University, Fresno. He has been a member of the Society of Automotive Engineers since 1981. He currently owns his own shop, Cleary Automotive, a Bosch Certified Diesel Vehicle Diagnostics Center, specializing in high tech driveability and electronics repairs on Ford Powerstroke Diesel engine systems, carrying on his "Last Chance Garage" tradition. An internationally recognized trainer, he presents high tech driveability and electronics training for technicians worldwide for his training company, Automotive Technical Support Services, in addition to writing automotive diagnostics articles for industry trade magazines. He has many years of continuous experience as a hands-on automobile technician in independent shops and dealerships.

LEARN FROM A HANDS-ON POWERSTROKE TECHNICIAN!

CLASS ONE: AUTOMOTIVE ELECTRICAL DIAGNOSIS: WHAT YOU DIDN'T LEARN IN SCHOOL

This class is all about helping you become proficient at automotive electrical and electronics diagnostics. Become an expert electrical tech!

TOPICS COVERED:

- Inside your multi-meter and how it applies to diagnosis
- Simplify complex wiring diagrams
- Why fuses don't blow
- What the "real world" voltage drop specs are
- Basic electrical circuits and their components
- Common diagnostic mistakes and how to avoid them
- What a negative resistance value really means
- Why Kirchoff's Laws apply more to diagnosis than Ohm's Law

CLASS TWO: FORD 6.7L POWERSTROKE DIESEL DIAGNOSTICS: HANDS-ON

TOPICS COVERED:

- Powerstroke systems and subsystem strategies and operating systems
- Reductant injector testing and cleaning procedures
- Manual regeneration
- Increase your knowledge of various electronic engine control system components
- Troubleshooting shortcuts to increase your efficiency
- Discuss actual case studies in order to become more effective with your diagnostic skills
- Component Familiarity
- Technical Tips, Technical Service Bulletin Info, and other "Need To Know" Info
